

Landmaster

Professionals who choose Votex, choose powerful machines that deliver maximum performance in all conditions. Whether your business is managing verges, ditches, gardens and parks, or your business is in agriculture or horticulture, Votex machines have been developed to enable you to work safe and responsible. You can also be sure of the best result and

an attractive rate per square metre. Votex machines are used in more than 25 countries.

The Votex Landmaster is the flail mower for large areas. It is specially designed for the mowing of green manures, corn stubbles and wastelands. Besides this, the machine can be used for general landscape maintenance.

- Verges and ditches
- Garden, park and public greenery
- Agriculture and horticulture
- Mowers
- Blowers
- Vacuum units and trailers

Heavy duty agricultural flail mower

The Landmaster machine comes as standard with 1,3 kg flails for the mowing of the heaviest vegetation. Several options for front or rear mounting turn this machine into a very versatile flail mower. The patented front trailed linkage is optional. This linkage provides you with the benefits of a good view at your work when front mounted, and it follows the exact ground contours when rear mounted. Result: the fastest mower in its category.

Standard options

- Specially designed for cutting green manures and wastelands
- Suitable for heavy landscaping
- Double three-point hitch suitable for both front and rear construction
- Standard equipped with 1,3 kg hammer flails
- Optional front trailed linkage for higher working speeds, better float and lower fuel consumption
